EXPERIENCE

Electric AI, New York, NY

May 2020 – Nov 2023

Senior Frontend Engineer (Oct 2023 – Nov 2023)

Frontend Engineer (Oct 2021 – Sep 2023)

- Software development for Electron native application, used to connect customer devices to internal users database, using Rust, Node and Typescript
- Researched and built proof of concept for delivering automatic updates to Electron application from S3 bucket, on Mac and PC

Associate Frontend Engineer (May 2020 – Sep 2021)

- Translated Figma design mocks into responsive, functional React components for Electric's customer-facing web applications
- Wrote GraphQL queries and mutations to request and update application data via backend API. Wrote unit and integration tests using Cypress and Jest

MongoDB, New York, NY

Sep 2017 – May 2020

Senior Product Designer (June 2019 – May 2020)

- Led concept and design of new product Atlas Data Lake, a tool that allows users to query S3 data with MongoDB Query Language, from initial brainstorm to beta release

Product Designer (Sep 2017 – May 2019)

- Redesigned Salesforce Support Console (internal) and Customer Support Portal (external) for improved customer support experience

Etsy, Brooklyn, NY – Product Designer

Jan 2016 – June 2017

- User research and design for internal background-check tools used to review thousands of Etsy shops for sales events and features on Instagram, Twitter, Good Morning America, etc.
- Developed an internal tool enabling email marketers to conduct A/B tests within Etsy's email service provider platform.

Gust, New York, NY – Lead UX Designer

Jan 2015 – Dec 2015

- Designed web app to help startups prepare for investment and growth by generating investor-friendly legal records.
- Coordinated design reviews and technical brainstorms with remote development team, bridging EU and NYC time zones and facilitating collaboration

Google, New York, NY – UX Designer (contract)

Dec 2013 – Dec 2014

- Designed mobile and embedded web version of sign in for all screen sizes, with adaptations to accommodate from 1 to 10 user accounts
- Defined patterns for displaying and switching accounts, on desktop and mobile, to give users greater control and flexibility over their data

Intuit, Mountain View, CA – Senior Visual Designer

Oct 2010 – Dec 2013

- Led visual design for tablet version of QuickBooks Mobile for Android, from concept to market release
- Organized and facilitated collaborative company-wide workshops using design thinking methodologies
