EXPERIENCE

Electric AI, New York, NY

Senior Frontend Engineer

October 2023 – November 2023

Frontend Engineer

October 2021 – September 2023

Frontend Engineer (associate)

May 2020 – September 2021

- Translated Figma design mocks into responsive, functional React components for Electric's customer-facing web applications
- Wrote GraphQL queries and mutations to request and update application data
- Wrote unit and integration tests using Cypress and Jest
- Built features for Electron native application, used to connect customer devices to internal users database, using Rust and Typescript. Included proof of concept for automatically updating Electron application from S3 bucket, on Mac and PC

MongoDB, New York, NY

Senior Product Designer

June 2019 – May 2020

Product Designer

September 2017 – May 2019

- Redesigned Salesforce Support Console (internal) and Customer Support Portal (external) for improved support experience
- Led design of first version of Atlas Data Lake, a tool that allows users to query S3 data with MongoDB Query Language, from concept to beta release

Etsy, Product Designer, Brooklyn, NY

January 2016 – June 2017

- User research and design for background-check tools used to review thousands of Etsy shops for features on Instagram, Twitter, Good Morning America, etc.
- Created internal tool for email marketers to run A/B tests in Etsy-built email service provider

Gust, Lead UX Designer, New York, NY

January 2015 – December 2015

- Designed web app to help startups prepare for investment and growth by generating investor-friendly legal records
- Coordinated design reviews and technical brainstorms with remote development team, bridging EU and NYC time zones

Google, UX Designer (contract), New York, NY

December 2013 – December 2014

- Designed mobile and embedded web version of sign in for all screen sizes, with adaptations to accommodate from 1 to 10 user accounts
- Defined patterns for displaying and switching accounts, on desktop and mobile, to give users greater control over their data

Intuit, Senior Visual Designer, Mountain View, CA

October 2010 – December 2013

- Led visual design for tablet version of QuickBooks Mobile for Android, from concept to market release
- As member of Innovation Catalyst team, organized and facilitated workshops using design thinking methodologies across the company
